## **Noted Sage ERP X3 Expert Joins Pennsylvania-Based RKL eSolutions**

*Former Sage Employee, Tom Heinricher, brings extensive project management and consulting experience to further strengthen RKL's [Sage ERP X3](#) practice.*

**Lancaster, PA – January 30, 2012** – RKL eSolutions (<http://www.rklesolutions.com>), a business software and technology provider headquartered in Pennsylvania, has announced that Thomas (Tom) J. Heinricher, MBA - recognized Sage ERP X3 expert - has joined their staff. As a member of the RKL eSolutions team, Heinricher will provide project management, implementation, sales support, and consulting services. His unmatched knowledge and experience significantly bolsters the position of RKL eSolutions as a top Sage ERP X3 provider and authorized partner.

Joe Noll, President at RKL eSolutions, enthusiastically welcomed Heinricher's arrival. "Tom is a fantastic addition to the RKL team. Having worked directly for Sage, he is a recognized resource within the Sage X3 partner channel and brings a unique and balanced skill set to both our sales and consulting operations."

Noll also points out that Tom will serve as a fantastic mentor to other consultants. "His combination of in-depth product knowledge and 20-plus years of experience make him an ideal mentor to the rest of our consultant team in relation to Sage ERP X3. In addition, his vertical industry knowledge in manufacturing and wholesale distribution will be a great asset to RKL."

[Sage ERP X3](#) customers will be among the first to see the advantages that Heinricher brings to RKL, but Noll says they won't be alone. "The Sage X3 product line has been a significant part of our recent work with customers. But we're also strongly committed to supporting other Sage channel partners when they need it." Noll adds, "Tom is the rare individual with a balanced skill set to support the sales process as well as lead consulting and implementation projects. So I think there will be opportunities to partner up with other Sage X3 providers."

Sage ERP X3 provides mid-sized distributors and manufacturers with a web-based business management platform with capabilities typically found in larger systems but without the complexity or expense associated with an enterprise software implementation. The RKL eSolutions product portfolio also includes Sage 100 ERP (formerly Sage ERP MAS 90 and MAS 200), Sage 500 ERP (formerly Sage ERP MAS 500), Sage 300 ERP (formerly Sage ERP Accpac), Sage SalesLogix CRM, and Sage Fixed Assets Software.
