

FIXED ASSET OUTSOURCING

*Managing Your Fixed Asset Lifecycle
From Acquire to Retire*

**FIXED ASSET
CONSULTING**
Crazy About Your Assets

“ We spent several months reconciling fixed assets every quarter. But Fixed Asset Consulting reduced that time down to just a couple of weeks. Not only are we saving time and money, we’ve eliminated all that tedious busy work. ”

- Jamie Herrera
Nike, Inc.

FIXED ASSET MANAGEMENT OUTSOURCING

If you’re like most companies, the process of managing and reconciling fixed assets every period stands out as an area of administrative burden and glaring inefficiency. **But there’s a better way!**

Fixed Asset Consulting is “*Crazy About Your Assets*” and has been helping our clients - both large and small - manage the entire fixed asset lifecycle from acquire to retire since 1996.

HERE’S HOW IT WORKS

Our team takes on the role as your fixed asset manager on a monthly or quarterly basis depending on your needs. Simply provide your asset additions and activities for the period and we take care of the rest including:

1. **Data Conversion** - we clean up and organize your existing fixed asset data.
2. **Depreciation** - we generate depreciation schedules and fixed asset registers.
3. **Reporting** - you get all the reports you need for book, state, and tax purposes plus one additional custom report upon request.
4. **Reconcile and Update** - we provide journal entries for general ledger posting and reconcile everything back to your financials.
5. **Year-End Support** - get year-end reports for audit support including Form 4562, roll forward, and other supporting documentation for tax purposes.
6. **Ongoing Maintenance** - we provide the tools and processes for tracking new fixed assets and disposals going forward.

THE BENEFITS

After outsourcing fixed asset management and accounting to the Fixed Asset Consulting team, our clients report that they:

Save Money

Reduce administrative overhead and eliminate the cost of purchasing fixed asset software or outsourcing to your CPA.

Save Time and Sharpen Focus

Eliminate spreadsheets, manual reconciliation, and administrative burden so your accounting staff can focus on more important and strategic activities.

Improve Speed & Accuracy

Significantly shorten your reporting cycle and generate quarterly estimates that are accurate, on-time, and help you avoid penalties.

Reduce Risk & Compliance

Easily comply with legislation like Sarbanes-Oxley and reduce audit risk.

Have Peace of Mind

Maximize asset utilization, capture overlooked tax deductions, and pay property tax *only* on what you own and still have in service.

FIXED ASSET PROGRAMS

Whether your company is large, small, or somewhere in between, we offer a range of fixed asset outsourcing programs to meet your needs and budget.

LITE - Less than 1,000 assets

STANDARD - Less than 5,000 assets

PREMIER - Between 5,000 and 15,000 assets

EXECUTIVE - More than 15,000 assets
